

FCC,

The state Law regarding phone privacy should be left untouched. I used to receive 15-20 calls at all hours of the night and now I might get 2 or 3. If I tell them they are not allowed to call me then they leave me alone due to the current law. Do not change this because it works. I hope you don't buckle to the political preasure which I am certain why we are hear to begin with.  
Regards,

Wade Buckwalter
